GitHub:- https://github.com/Kaleb11

I am an experienced software developer with 4+ years of expertise in both backend and frontend development. I specialize in Golang and Node.js for backend, and have worked with React, Vue, and Angular for frontend. I have a proven track record of building high-performance applications, solving complex problems, and contributing to open-source projects. I excel in remote work environments and enjoy collaborating with global teams.

PROFESSIONAL EXPERIENCE

MEREB Corp. | Remote — Austin, USA

Golang Developer
November 2023–Present

- Developing Backend Services: Build and maintain scalable backend services using Golang to support our applications.
- Integrating with AWS: Implement and manage AWS services like SES, SNS, and S3 to enhance our system's capabilities. Ensure maximum client satisfaction by providing exceptional and personalized service, enhancing client satisfaction ratings from 88% to 99.9% in less than 6 months
- Optimizing Performance: Improve the performance and efficiency of our applications by optimizing code and database queries.
- Collaborating with Teams: Work closely with our remote team members to ensure smooth communication and effective project execution.

MINARC Org. | Remote — Addis Ababa, ET

Node, Typescript Developer
January 2023–August 2023

- Building and maintaining backend APIs using Node.js and TypeScript to support various applications.
- Ensuring code quality and consistency by writing clean, maintainable code and following best practices.
- Collaborating with frontend developers to integrate APIs and deliver seamless user experiences.
- Troubleshooting and resolving issues, optimizing performance, and ensuring the reliability of our backend systems.

ADWA Tech. | On-site   **Addis Ababa, ET**
CTO & Full stack Developer (Typescript, Node & React)   *March 2021–October 2022*

- Leading the development team and overseeing all technical projects to ensure they meet business goals and deadlines.
- Designing and implementing both backend services and frontend interfaces, using technologies like Golang, Node.js, and popular frontend frameworks.
- Managing the integration of various tools and services, ensuring seamless operation and optimal performance of our systems.
- Collaborating with other executives to align technology strategies with overall business objectives and drive innovation.

TWOF TIMES Plc. | On-site   **Addis Ababa, ET**
Golang Developer   *March 2020–Feburary2021*

- Developing and maintaining robust backend services using Golang to support our web and mobile applications.
- Writing clean, efficient, and well-documented code while following best practices and coding standards.
- Collaborating with cross-functional teams to design, implement, and optimize new features and functionalities.
- Troubleshooting and resolving technical issues to ensure high availability and performance of our systems.

EDUCATION & CERTIFICATIONS

ADDIS ABABA INSTITUTES OF TECHNOLOGY UNIVERSITY   **Addis Ababa, ET**
Bachelor of Software Engineering | Degree   *January 2015- August 2019*

Amazon Web Services   **Addis Ababa, ET**
AWS Certified Solutions Architect   *August 2022*

TECHNICAL SKILLS

- **Languages & Frameworks:** Golang (Fiber, Gin, Echo), Node.js (Express.js, NestJS), TypeScript (Next.js, NestJS)
- **Tools & Technologies**: AWS (SES, SNS, S3, EC2, DYNAMODB, RDS), MongoDB, POSTGRESQL, MYSQL, SQL, Docker, Kubernetes, Git
- **Development Practices**: TDD, CI/CD, Agile, DevOps
- **Language Proficiency**: English (Proficient)
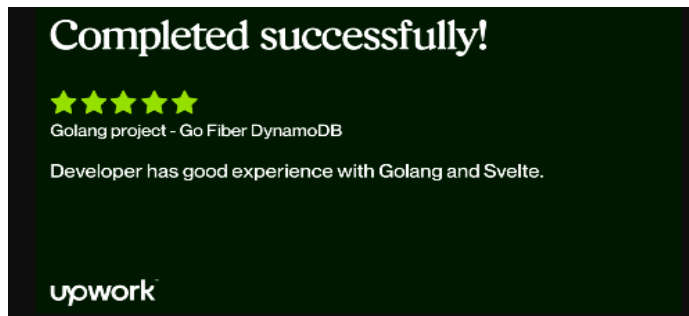

PORTFOLIO & ONLINE PRESENCE
